

# Hermetic connectors

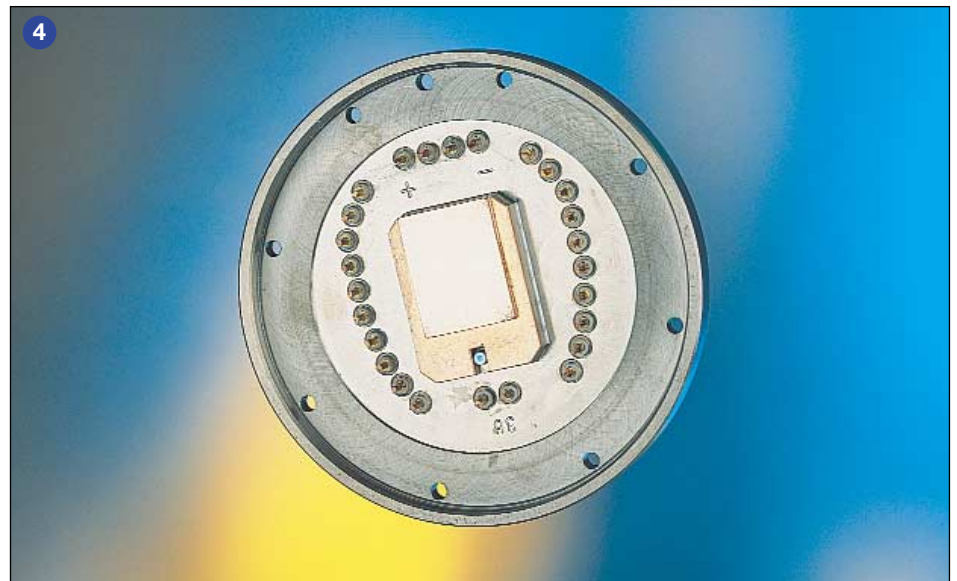

## SN 2245

### Descriptions

- Feed through hermetic connector
- This hermetic pin plate is machined from one single titanium pave. Its dimensional stability is guaranteed by specific in process operations including stress relaxation phases between each manufacturing step
- Each lot is 100% individually dimensionally checked with 1  $\mu\text{m}$  precision measurement means

### Applications

- Satellite
- Lab equipment

## SN 1740

### Descriptions

- Mini  $\varnothing$  hermetic, feed through
- This hermetic pin plate is machined from stainless steel
- Each lot is 100% individually checked :
  - dimensional
  - hermeticity
  - electrical performance

### Applications

- Offshore
- Satellite
